Contents of Volume 223

Vol. 223 Nos. 1–2 **SEPTEMBER 22 1999**

Research papers

Developing the snow component of a distributed hydrological model: a step-wise approach based on multi-objective analysis
S.M. Dunn and R.J.E. Colohan 1

Variations of the stable isotopic compositions of rainfall events from the Cameroon rain forest, Central Africa
R. Njitchoua, L. Sigha-Nkamdjou, L. Dever, C. Marlin, D. Sighomnou and P. Nia 17

A model study of kB_H^{-1} for vegetated surfaces using 'localized near-field' Lagrangian theory
W.J. Massman 27

Joint application of surface electrical resistivity- and GPR-measurements for groundwater exploration on the island of Spiekeroog—northern Germany
J. Tronicke, N. Blindow, R. Groß and M.A. Lange 44

Ranking stochastic realizations for improved aquifer response uncertainty assessment
H. Kupfersberger and C.V. Deutsch 54

On formalization of unit-hydrograph and link-node hydrograph-routing systems
T.V. Hromadka II and R.J. Whitley 66

Modelling floods in hydrologically complex lowland river reaches
M.D. Stewart, P.D. Bates, M.G. Anderson, D.A. Price and T.P. Burt 85

Vol. 223 Nos. 3–4 **OCTOBER 1 1999**

Research papers

Simulation of contaminant transport in fractured permeable formations by multiporosity modeling
H. Rubin, D. Jansen, C. Forkel and J. Köngeter 107

Real-time estimation of mean field bias in radar rainfall data
D.-J. Seo, J.P. Breidenbach and E.R. Johnson 131

Identification of regional parameters of a stochastic model for rainfall disaggregation
Y. Gyasi-Agyei 148

Solubility effects on surfactant-induced unsaturated flow through porous media
E.J. Henry, J.E. Smith and A.W. Warrick 164

A two-well method to evaluate transverse dispersivity for tracer tests in a radially convergent flow field
J.-S. Chen, C.-S. Chen, H.-S. Gau and C.-W. Liu 175

Measurement of relative permittivity in sandy soils using TDR, capacitance and theta probes: comparison, including the effects of bulk soil electrical conductivity
D.A. Robinson, C.M.K. Gardner and J.D. Cooper 198

Ancient groundwaters in the Amadeus basin, Central Australia: evidence from the radio-isotope ^{36}Cl
R.G. Cresswell, G. Jacobson, J. Wischusen and L. Keith Fifield 212

Modeling of earthquake-induced hydrological changes and possible permeability enhancement due to the 17 January 1995 Kobe Earthquake, Japan
T. Tokunaga 221
